EQUIPMENT SOLUTIONS

Built Right

Introducing Amphibious Equipment Solutions: Specialized excavators and carrier trucks for all your work on wet and uncertain terrain.

Why go amphibious? Because **#wefloat**.

Imagine working on ice, muskeg, swamps, ponds and rivers knowing your risk is minimized because you are using amphibious equipment. Our machines are manufactured to meet the needs of a variety of sectors and a variety of tasks. We are cost effective, efficient, capable, and environmentally friendly. Our low ground pressure is perfect for remediation and reclamation work—and we can customize our machines for any job.

Change the way you work.

We sell adaptable amphibious undercarriages and full machines, built to your specifications.
